National Aerospace University "KHAU"

Telecommunications and radio engineering.
2017 - 2021

Work Experience

🏠 Freelance

Now

🏠 Small price (one time project)

Full Stack Developer | December 2024 - November 2025

Developed an analytical platform for marketing to monitor advertising effectiveness.

🏠 Corefy

Backend Developer | May 2023 - July 2023

Corefy is's Payment orchestration platform. I managed to make a connector. Work with the ELK stack to fix bugs that come in sentry and small logic patches.

🏠 Stellium (Local Web Studio)

July 2020 - April 2023 (~2 years 10 months)

🔧 Software developer

June 2022 - Apr. 2023 (~ 10 months)

Was on the development team CRM system.

🔧 Full Stack Developer

July 2020 - June 2022 (2 years)

I developed and maintained e-commerce websites on OpenCart, focusing on optimizing site loading speed and improving Google PageSpeed Insights ratings with consideration for SEO.

🏠 StableFlow (Local Web Studio)

PHP developer | Feb. 2020 - Apr. 2020 (Covid19)

Worked with wordpress and custom application for orders.
