Education

National Aerospace University "KHAI"
Telecommunications and radio engineering.
2017 - 2021

Work Experience

👷 Freelance

Now

👷 Corefy

Backend Developer │ May 2023 - July 2023
Corefy is`s Payment orchestration platform. I managed to make a connector. Work with the ELK stack to fix bugs that come in sentry and small logic patches.

👷 Stellium (Local Web Studio)

July 2020 - April 2023 (~2 years 10 months)

⛏ Software developer

June 2022 - Apr. 2023 (~ 10 months)
Was on the development team CRM system with technologies like Symfony 5 and React. Frontend (React, TypeScript, Ant Design) Backend (PHP, Postgresql, Rest API on Symfony 5 [DDD, Hexagonal architecture, CQRS])

⛏ Full Stack Developer

July 2020 - June 2022 (2 years)
I developed and maintained e-commerce websites on OpenCart, focusing on optimizing site loading speed and improving Google PageSpeed Insights ratings with consideration for SEO.

👷 StableFlow (Local Web Studio)

PHP developer │ Feb. 2020 - Apr. 2020 (Covid19)
Worked with wordpress and custom application for orders.
